

nec Ingenium 2025

Event	Open Science Project Competition “For School Students”
-------	--

Main Event Date	03 July 2025
-----------------	--------------

Themes
Innovative STEM model prototypes that demonstrate practical applications of scientific principles through hands-on experimentation and design.

Exhibition Format
<ul style="list-style-type: none">• Project Display: Each team sets up a booth with their prototype, accompanied by a display board detailing the project's objectives, methodology, and outcomes.• Interactive Demonstration: Allow judges and visitors to interact with the prototype to understand its functionality and design.• Presentation: Teams present their project to the judges, explaining the scientific principles behind their prototype and its potential applications.• Q&A Session: Judges ask questions to assess the team's understanding and the project's feasibility.

Judging Panel Composition
<ul style="list-style-type: none">• Subject Matter Experts: Professionals or academics with expertise in relevant scientific fields• Industry Representatives: Individuals from industries related to the projects, providing practical insights.• Educators: Teachers or educators who can assess the educational value and clarity of the presentations.

Team Members
<ul style="list-style-type: none">• The participants must be students of +2 science colleges .• The team must register online for participation.• Team size: 2-4 members.

Timeline
Submission : 29 June 2025
Revisions : 30 June 2025
Approval : 01 July 2025
Event Date : 03 July 2025
